EXAMINER'S AMENDMENT

The election requirement in this application has been withdrawn, and claims 80-110 have been given an action on the merits.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 96, line 2, "that" has been deleted; on page 4, line 11, of the specification, the first occurrence of "4" has been changed to – 3–; on page 5, line 2, "I" has been changed to –It–.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: This case is being passed to issue because the prior art does not disclose an apparatus including a plurality of storage stationary containers, a plurality of stationary animal feed stands, each stand accommodating an animal to consume feed from the containers, with the stands and containers being integrated in a stationary structure, and a robot arm arranged to move animal feed from a selected container to a selected feed stand, the arm having a detaching means for detaching part of the feed in the selected container and displacing means for displacing the detached part of feed to the selected feed stand and depositing it there. An apparatus comprising a feed station having a plurality of containers, with the containers holding different animal consumables, a plurality of

troughs, and a bendable robot arm constructed and arranged to move feed from a selected one of the containers to a selected one of the troughs, the arm having detaching means for obtaining a predetermined amount of an animal consumable from one of the containers and displacing means for selectively displacing the detached amount of the consumable into a selected trough, also was not disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The reference to Strautmann has been cited to provide an example of a bendable robot arm used to lift items.

This case is being passed to issue with allowed claims 80-86, 88, 87, 89-110, renumbered as claims 1-31.
